CUBE LOCK

NAME: _____

Easier level

1 **How many cubes are in each building? No cube is hidden.**

★ For the lock: the number of cubes in the starred building.

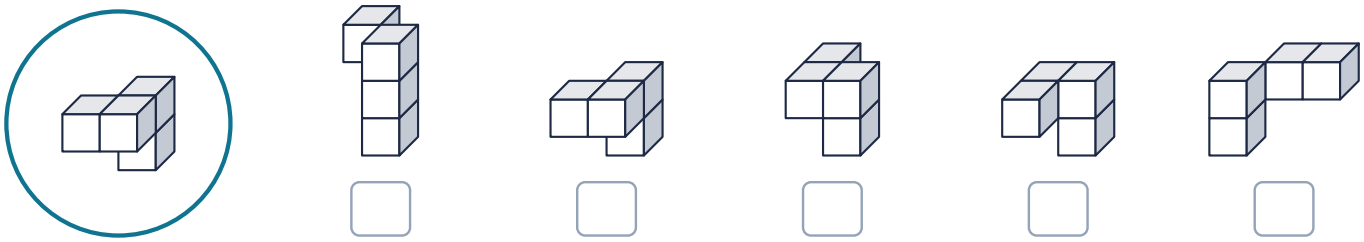

2 **What do you see when you look at the building from the front? Circle the right picture.**

★ For the lock: the number of the right picture.

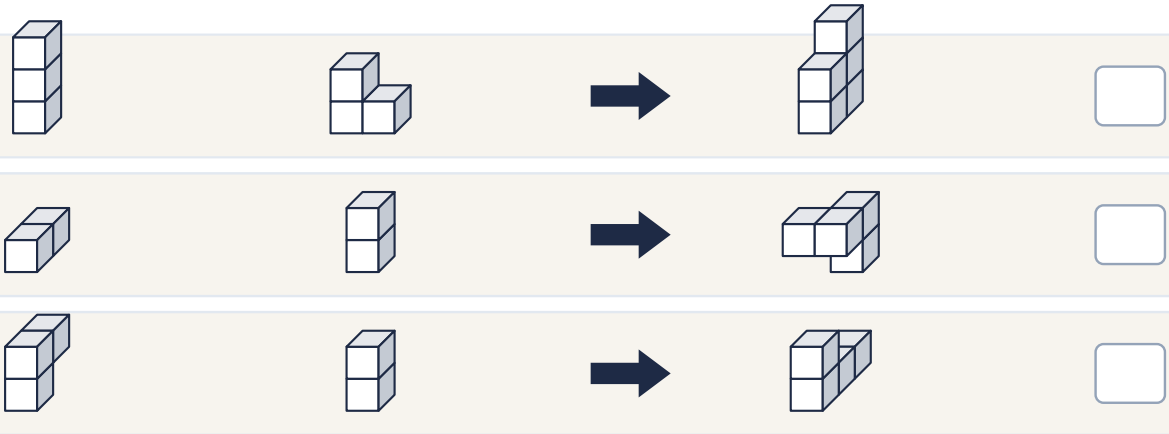

3 **Which building is the one in the circle, just turned around? Write ✓ or ✗ under each.**

★ For the lock: how many buildings are the same.

4 **Do the pieces on the left make the building on the right? You may spin the pieces. Write ✓ or ✗.**

★ For the lock: how many ticks ✓ you wrote.

Open the lock! Write the digits from tasks 1–4.

1	2	3	4

Hint: the four digits add up to 13.
